

Vaccine Vial Monitors

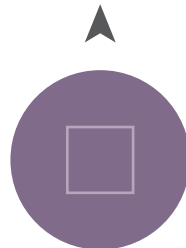

USE

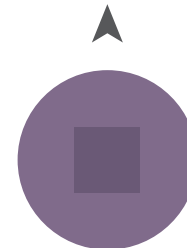

Square is lighter than outer circle

The color of the inner square of the VVMs begins with a shade that is lighter than the outer circle and continues to darken with time and/or exposure to heat.

DO NOT USE

Square matches circle

Square is darker than circle

Once a vaccine has reached or exceeded the discard point, the colour of the inner square will be the same colour or darker than the outer circle.

DISCARD POINT

Inform your supervisor

Cumulative heat exposure over time
